Eqwal strengthens its presence in France with the acquisition of Prestaco

Founded in 2018, Prestaco supports healthcare facilities, medico-social organizations, and private individuals in meeting their medical equipment needs. Under the leadership of Driss Hamoudi, Managing Director, the company has developed recognized expertise in this field and provides comprehensive support throughout the entire lifecycle of medical equipment, including rental and sales, installation, maintenance, delivery, user training, disinfection, as well as equipment tracking and traceability.

Thanks to its strong local presence in Nancy, its responsiveness, and the quality of its services, Prestaco has built lasting relationships of trust with healthcare professionals and patients by providing reliable, high-performance, and tailored medical equipment solutions that contribute to improving comfort, safety, and autonomy in everyday life.

This collaboration with Prestaco is fully aligned with Eqwal's strategy to strengthen its expertise in mobility solutions and medical equipment. With Prestaco joining the group, Eqwal continues to pursue its commitment to sustainably supporting patients by providing adapted solutions that improve their quality of life every day.

"We are delighted to welcome Prestaco to Eqwal. Its strong position as a regional player in medical equipment and home care represents a valuable asset in the continued development of our Patient Care division in France. We would like to thank Driss Hammoudi for his trust and we look forward to starting this new collaboration."

Jean-Pierre Mahé, CEO of Eqwal
